

The image shows the front cover of a book. The cover is a deep green color with a prominent, embossed, wavy, scale-like texture. A vertical strip of smoother, solid green material runs down the left edge. In the center of the cover, there is a rectangular, slightly recessed label with a thin border. Inside this label, the title "THE FOOTPRINTS" is embossed in a bold, sans-serif font, with the year "1950" below it. On the left side of the cover, there are two decorative, embossed scrollwork motifs, one near the top and one near the bottom. A small, similar decorative element is also visible on the right side of the cover.

# SUPERINTENDENT and PRINCIPAL'S STATEMENTS

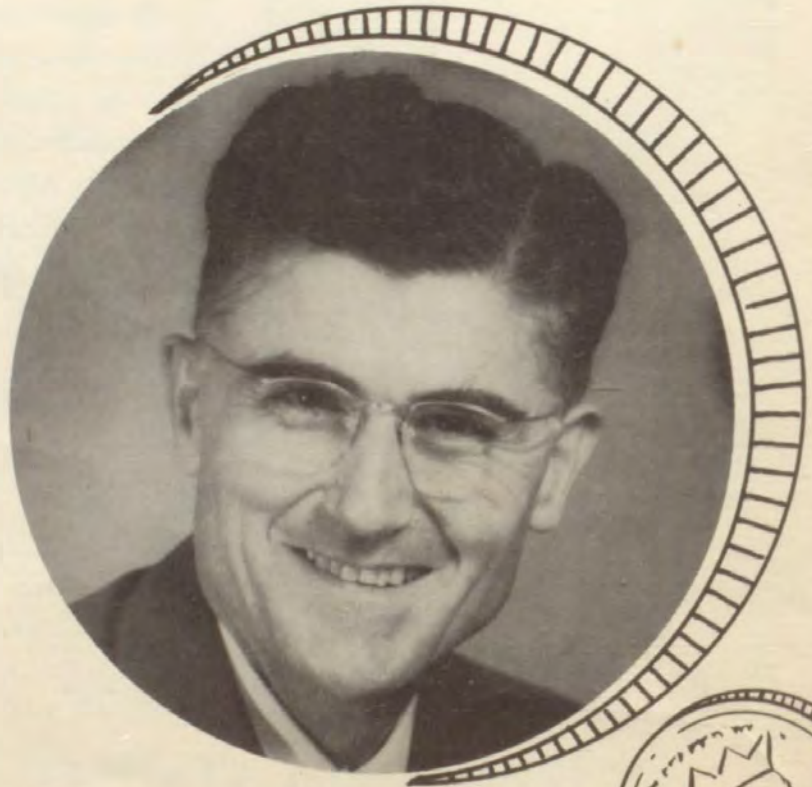

This record of our activities during 49-50 will recall many pleasant memories to each of us in the years ahead. May those memories include our present aims and ambitions and kindle within us a determination to live according to those principles we learn to practice in the classroom, on the campus, and on the playing field.

J. C. Petty  
*Superintendent*

HIGH SCHOOL DAYS . are *happy days!* They should be very profitable to each boy and girl in the understanding of self and in the attainment of his or her fondest dreams. Be careful not to throw away even one of them. Be sure you major those aspects of school life which will be of the most value to you, and that you be a friend to as many other boys and girls as you can.

When you start turning the next twenty  
pages, remember that they are the results  
of our first attempt toward an annual. Al-

though we have made quite a few mistakes,  
we have learned much and enjoyed working  
together.

This has been an eventful year for  
most of us, one we shall not soon forget,  
for it has marked a more definite beginning  
of a Junior High. In the years to come  
when our school has become a well-established  
part of our school systems, we shall turn  
these pages with a proud but wistful smile  
and reminisce together.

# Junior High Faculty

May I offer sincere thanks and congratulations to supreme Annual Sponsors and a fine Staff.

Our ability to play and work as a team has welded us, a fine piece of steel, into a faculty and student body unexcelled.

In closing, may I leave the thought expressed in these few lines:

"Drink deep, or taste not, the  
Pierian spring.  
For shallow droughts intoxicate  
the brain.  
While drinking largely sobers  
us again."

Very sincerely yours,

Smith F. Watkins, *Principal*
